

COL Property Quoting Integrated with HazardHub Wildfire Score

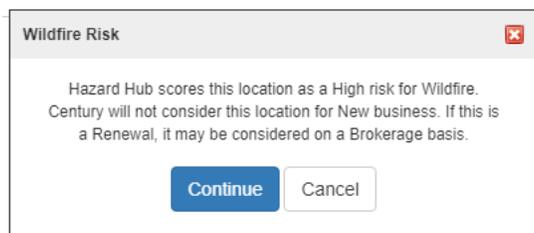

Century Online (COL) now automatically runs HazardHub on Property risks to **identify and avoid Wildfire/Brushfire Zones in the following states.**

Alaska	Montana	Texas
Arizona	Nevada	Utah
California	New Mexico	Washington
Colorado	Oklahoma	Wyoming
Idaho	Oregon	

Century is not a market for HazardHub Wildfire Scores of “High” or “Very High.” Renewals found to be in “Very High” areas will be non-renewed. Renewals with a score of “High” will be considered for continuing coverage on a brokerage basis and are subject to increased rates and minimum premiums.

	High HazardHub Wildfire Score	Very High HazardHub Wildfire Score
New	Decline	Decline
Renewal	Eligible with 40% increase and \$2,500 MP	Non-Renew

Century Online will automatically check HazardHub for Property Risks. If a property is in a High or Very High wildfire zone, COL will return the below message:

COL WILL NOT pull for Garage but the following guidelines should be followed:

- Dealers Physical Damage should be avoided in High/Very High Wildfire Zones.
- Garagekeeper's coverage should be limited to Legal Liability basis in High/Very High Wildfire Zones.
- If in doubt, [contact your Century Garage Underwriter](#), or enter property coverage to check the property wildfire zone.
- HazardHub scores will be available for Garage at a later date

**Contact your Century Underwriter for more information.
Thank you for your partnership and support!**
